

## Test Instructions

1. The test contains a grand total of 30 questions. Total duration of the test is 30 minutes.

2. In case you face any difficulty logging in or have not received a temporary password, you may use **sign in via Google** as an option.

3. Please make sure you are using a system that supports webcam. Webcam is mandatory as part of the evaluation process.

Once you click the test link, you will be redirected to the test page. A pop-up will appear and will request for webcam permission. Ensure that your browser settings are adjusted so that the pop-ups would not be blocked.

- The webcam should be enabled before you start the test. In case you do not enable your webcam, the test will not begin
- If you hide the webcam, it will be reported as a black screen, leading to the drop of your candidature.
- In case we note any suspicious activity, your candidature shall be removed as well.

4. Kindly use the latest version of Google Chrome only, to attend the test. Any other browser can lead to technical issues or glitches.

5. You are advised to charge your laptop or keep a charger handy, such that you can appear for the test without battery issues.

6. Please make sure you have a stable and strong Internet connectivity.

No request for retest will be considered. Hence, ensure that all the above test instructions related to webcam, browser, system battery or internet connectivity issues are strictly followed.
